Nurturing a Culture of Innovation

European Union Prize for Collaborative Learning

European Union Prize for Collaborative Learning

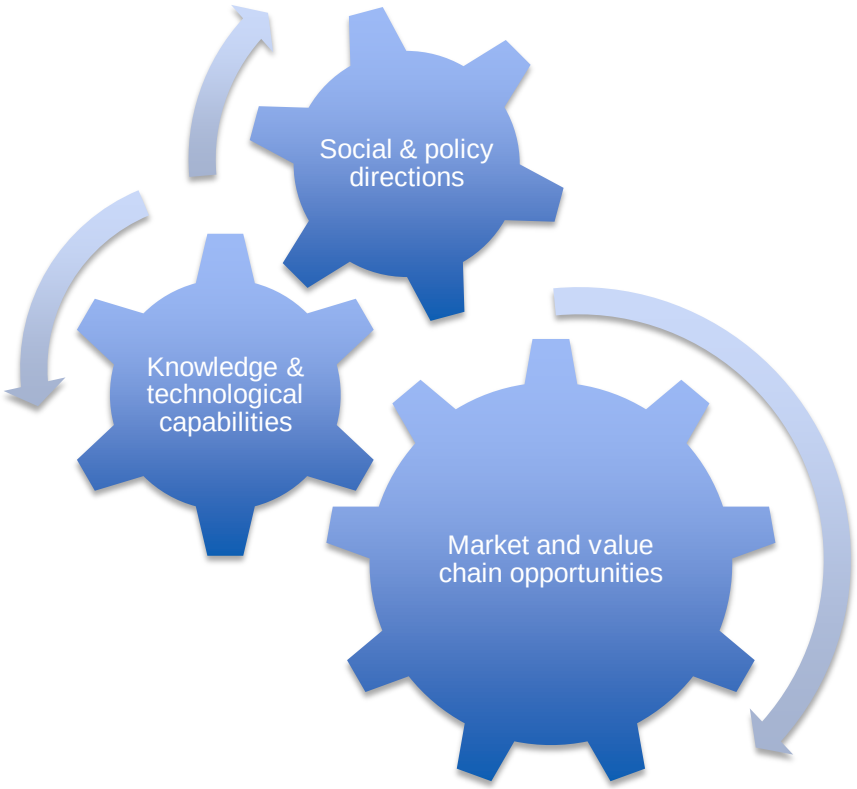
You are excited about your project!

- We want you capture what you've learned from developing your project.
- We want you to share how your participation in eChallenge has expanded your mind and could potentially change your life – Even the smallest change is relevant.

The challenge of innovation is not ending --- it's beginning!

- We want to encourage you to experience a life-long process of learning with others.

What is Innovation?



- New products
- New customer services
- New production processes
- New ways of organising the business

Under conditions of risk and uncertainty!

That require learning together!

Why Is "Collaborative Learning" Important?

- Under conditions of risk & uncertainly, no one *knows* the answer.
- We learn FROM and WITH each other.
- HOW you create something may be even more important than WHAT you create.

What did you learn from your e-Challenge experience?

Team Assignment

As a team decide what you have learned from your e-Challenge experience:

1. What did you learn from developing your project?
   - Facts that will shape your future thinking?
   - Ideas that have changed how you see the world?
   - Conclusions you will continue to test in your life?

2. What did you learn from working as a team?

Then:

3. Prepare 2 slides to share with others:
   - Slide 1 – Facts / Ideas / Conclusions that surprised you
   - Slide 2 – What you learned about creating a successful team

The deadline for submitting your slides by email to eucentre@adelaide.edu.au is 12 noon Tuesday, 3 November!
